

Information on Covid-19

KAESER KOMPRESSOREN is acting as follows to avoid / minimize the economical / medical effects of Covid-19:

- We have in place the appropriate Business Continuity Plans to ensure continuous smooth operations and close communication with our partners
- We are acting in full compliance to laws and regulations as well as to local measures related to COVID-19 provided by relevant authorities, including more stringent measures as adopted to face the situation (e.g access to sites);
- We have taken all relevant measures to avoid / minimize potential infections with Covid-19, for example:
 - Employees perform – if possible - mobile working
 - Internally, workplaces are arranged in such a way that the amount of employees in one room is reduced to a minimum
 - the personal contacts between employees, business partners are minimized as much as possible
 - Our employees and our partners are using web-conferences for communication as much as possible
 - Employees are informed at regular intervals about the officially applicable behavior (wash hands, keep distance, etc.)
 - The number of hand disinfection points has been optimized at our location
 - Suspected cases at KAESER KOMPRESSOREN are dealt with individually based on the specifications of the official bodies.
 - Travel restrictions have been implemented and are being implemented
 - Deliveries of raw materials, shipments with forwarding agents and parcel service, as well as pick-ups at the location are carried out via controlled instructions with appropriate distance and security measures.
